WomenInTech Celebration 2024

Department of EEE

NEWS UPDATE

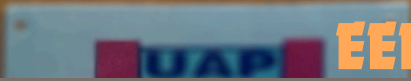

IEEE Women in Engineering (WIE) UAP Affinity Group in cooperation with IEEE UAP Student Branch has successfully organized "WomenInTech Celebration 2024". As a part of the event, different competitions- circuit solving, technical article writing, and pitching have been arranged in which more than 200 students have participated. The event concluded with a technical talk and a prize-giving ceremony.

Mrs. Anamika Bhakta, Executive Vice President, Regulatory Affairs and Communications at Robi Axiata Limited was the invited speaker of the technical talk session. Mrs. Bhakta has 22 years of career in the telecommunication industry and shared her thoughts about the world which is now in the 4th Industrial Revolution. She deliberated how students should prepare themselves for the professional field and how they should elevate their skills for it. In particular, Mrs. Bhakta explained the growth mindset and effective mindset of women in engineering and how much intelligence and passion are needed for it. The technical talk ended with an interactive Q&A session.

Prof. Dr. G. R. Ahmed Jamal, Head, EEE shared his thoughts on women's empowerment and happiness and expressed his sincere gratitude to the invited speaker for her remarkable journey in her professional career and for sharing her intuitions and wisdom with the students.
